

# OUR CAPABILITIES

MCM Agency is here to help fill in the gaps to create a comprehensive, viable, one-stop-shop solution to meet and exceed policyholder needs. We operate as a wholesale agency and are licensed to write business in every state except New York, New Jersey and New Mexico. We work exclusively through retail agencies that have a contract with one of the regional carriers that make up Motorists Insurance Group.

If a current or prospective Motorists policyholder has operations falling outside of the primary carrier's operating area, contact us to find out how we can help.

Common lines of coverage we write include:

- Dealers physical damage (dealers open lot)
- Pollution liability, including contractors, premises and above/underground storage tanks
- Professional liability
- Crime
- Cyber
- Directors and officers
- Employment practices liability
- Fiduciary
- Bonds

We will not quote against any Motorists Insurance Group affiliate unless they are no longer staying on all or part of the account. The risk does not have to be related to or part of a Motorists company account.
